

Drinking Water Policy

Introduction

This policy outlines the School's responsibility to provide adequate and appropriate drinking water facilities to pupils, and staff, and its responsibility to ensure that strict water drinking practices are in place to reduce the risk of the spread sickness and infection.

The Headmaster is responsible for the health of Bluewater employees and anyone else on the premises. This includes the teachers, non-teaching staff, pupils and visitors (including contractors).

Water dispensers

The School has a number of water dispensers outside the school canteen and outside the Kindergarten Building.

Parental responsibility

Parents and legal guardians are responsible for ensuring that their children bring to school on a daily basis a clean and suitable water bottle for the sole use of drinking water.

School responsibility

Class teachers and all school staff are responsible for ensuring children have adequate time to fill their personal water bottles at regular intervals during the school day. Class teachers are also responsible for ensuring pupils have access to their water bottles at appropriate and regular times during the school day.

Purchase of water bottles at school

Pupils who do not possess a water bottle will be sent to the main office where they will be provided with a new one by the school at a charge of 100 Baht. Parents will be invoiced for the issue of the water bottle.

Parental support

Support and understanding from parents with regards to this policy is essential in ensuring we as a school have the ability to reduce the risk of the spread of germs and infectious illnesses within the school.

School Nurse

The school Nurse is the point of contact for any parents or members of staff who have any concerns about the school drinking water policy.
